

Multi-Vehicle Transporters

T6-S: 48' Short Neck / T7-S: 53' Short Neck / T7-L: 53' Long Neck

T7-L pictured, some optional equipment may be shown, consult your Titan distributor for a complete list of options and features.

Your solution for moving multiple vehicles for auto auctions, car dealers and leasing companies is the Titan T Series multi-vehicle transporter. Your ability to load six to seven vehicles is fast and easy with the transporter, and with the optional head rack you may haul up to eight vehicles. The Titan T Series gives you faster loading time over conventional auto transports. Sales and service are provided through a nationwide distributor network. Check out the many quality features that make the Titan T-Series transporter the right choice for your next equipment purchase.
